

## 2007 – 2009 Catalog Addendum

The General Education Student Learning Outcomes on Page 59, of the Lawson State Community College 2007 – 2009 Catalog were revised during the planning cycle 2007 - 2008 to reflect the following:

| <b>NEW: Student Learning Outcomes</b>  | <b>OLD: Student Learning Outcomes</b>   |
|--|---|
| 1. Lawson State Community College students will demonstrate the ability to communicate effectively. (Express ideas with clarity, logic, and originality in both spoken and written English.)   | 1. General Education students will demonstrate the ability to write and speak logically, clearly, precisely and the ability through accurate reading and listening, to acquire, organize, present and document information and ideas.   |
| 2. Lawson State Community College students will demonstrate the ability to reason qualitatively. (Apply mathematical and principles to address and solve problems.)  | 2. General Education students will demonstrate the understanding of our cultural heritage as revealed in humanities and/or literature, its movements and traditions through reading, understanding, and analyzing the major works that have shaped our thinking and provide a record of human experiences.                          |
| 3. Lawson State Community College students will demonstrate the ability to think critically. Gather and interpret data using a variety of methods to address and solve both practical and theoretical problems.  | 3. General Education students will demonstrate application of the methods of science to the acquisition of knowledge, and will demonstrate an understanding of the major contributions of science to our cultural heritage and to the solution of contemporary problems.  |
| 4. Lawson State Community College students will demonstrate the ability to relate knowledge acquired across disciplines and historical, social, and cultural context; recognize differing views within disciplines; and appreciate creativity and new ideas. | 4. General Education students will demonstrate the ability to use computers for acquiring, processing and analyzing information.  |
| 5. Lawson State Community College students will demonstrate the ability to master and use basic computer skills in a wide range of classes and throughout the college experience.  | 5. General Education students will demonstrate an understanding of cultural foundations to include the study of interrelationships of anthropological and geographical influences and the major historical and social developments, which define world cultures.  |
|  | 6. General Education students will demonstrate the ability to use mathematics in solving problems, provide evidence of the ability to formulate problems, apply a variety of strategies to solve problems, verify and interpret results and generalize solutions. (See <i>New Outcome #2 for revised version of this outcome.</i> ) |
