To enhance students' beginning experiences, the college offers a comprehensive New Student Orientation program. New Student Orientation allows incoming students to participate in sessions to learn more about the college, participate in academic advising, pre-register for classes, and gain valuable information on subjects such as financial aid and the college's newly implemented affordable tuition management plan, residential life, athletics, and much more. Admitted students may select and attend a session that is most convenient. We look forward to seeing you!

If required, students should take the Compass Placement Assessment prior to attending an orientation session. Schedule an assessment by calling (Birmingham) 205.929.6385 or (Bessemer) 205.929.3418.
