Dear Mr. Thomas:

The Center for Families-Jefferson County (TCF-JC) has made significant progress since opening its doors to families in January 2003. Services provided through the center are determined by the needs of the community and are designed to provide wrap-around support to strengthen families. I am honored to have been selected to serve as Site Director for this innovative center, and I look forward to working with you and the other members of the Advisory Council.

Please join us for the next Advisory Council meeting. We have experienced some changes for the new fiscal year and we will update you on those and get your feedback on several other areas of interest. The Advisory Council meeting will be held:
