Subject: Companies for Summit invitation list development

Dear Dr Ward,

Attached please find a list of manufacturing/logistics companies in Jefferson and Shelby Counties. To generate a manageable list, I searched the database for companies with more than 100 employees and \$10 million in annual sales.

Among the information detailed for each company are its mailing address, contact phone, annual sales, number of employees, line of business, and top executives. There are a number of columns currently hidden on the spreadsheet (location, webpage, SIC code etc) that you can access if you think the information might be helpful.

Please review the list for accuracy based on your local knowledge. This list plus any companies that you want to add will serve as the basis for the invitation list to the Manufacturing Summit to be held this summer in Dallas.

It would be helpful if you could provide me with a contact person with whom I can work to finalize this list.

I will be sending to you on Monday the log on and password information for the May 1 webcast.
