Optimize Exam Experience

To optimize your exam experience you may configure your practice exam to suit your individual study needs. By optimizing your exam experience you can select items by exam objective, set study preferences and control how answers are accessed.

Preset Exam Experience

The Preset Exam Experience provides a practice exam that is timed and functions to approximate the real exam environment. Use Preset Exams to determine your readiness for the actual certification exam. Within the Preset Exam Experience no answers are provided until you have completed the exam.

Additional Tools

TranscenderFlash™

TranscenderFlash presents hundreds of questions in a flash-card format that allow you to review concepts in a self-graded, untimed, low-pressure environment. TranscenderFlash exams are previews of the concepts that will be covered by the actual certification exam.
