On Campus Classes

ALABAMA ELECTRICAL

CONTRACTORS EXAM PREPARATION

1/12-3/30, 5:45 PM-9:30 PM, M/W, \$760

This course introduces the students to the National Electrical Code and text and teaches the student how to find needed information within the manual and improve required mathematics skills. Emphasis is placed on locating and interpreting needed information within the NEC code manual and the formulas required for calculations. Upon completion, students should be able to locate, with the NEC code requirements for a specific electrical installation. Call Claudia Burgin, 205.929.3519 to register. (Birmingham Campus)

Commercial Driver's License (CDL)

6 Weeks, M-Th, Classes Now Forming, \$1,075

This course focuses on students obtaining a Class B CDL. Department of Transportation regulations require truck driving students to undergo a drug screening and obtain a D.O.T. physical. Each student must obtain a Commercial Driver's License Permit and have 20/40 vision with or without corrective lenses. They must also be fully capable of reading, writing, speaking and understanding the English language. (Bessemer Campus)

Welding Certification Workshop

9:00am – 3:30pm, \$150

Each Saturday in February

The Saturday workshop is six (6) hours long and provides welding safety instruction, practice time, welding equipment (not personal equipment, consumable supplies, test plate (student will prepare), one x-ray, results of test, and certification if test results comply with AWS D1.1 Code. Additional x-rays for certification in more than one position will be \$60. (Bessemer Campus)

Programmable Logic Controllers

6:00pm – 9:55pm, 1/13-2/26/09, \$450

This course emphasizes PLC programming, connections, installations, and start-up procedures. Upon course completion, students will be able to identify inputs and outputs, list capabilities of system, monitor system operation, recognize ROM and RAM functions, and recognize binary and digital number systems. (Bessemer Campus)
