

Is there a fee for taking this assessment?

There is no fee for an initial compass assessment. The re-test fee is \$8, payable by check, cash, money order, or major credit cards. (See test administrator.)

What is the re-test policy?

If a student is placed into a developmental course as a result of his / her initial compass scores, he or she must complete at least one sequence of the developmental courses before being eligible to retake the Compass Placement Assessment again. Retest requests are subject to approval and are not guaranteed. During the first seven days of class, developmental students in English and math are administered a diagnostic exam. Students scoring 80% or higher on this exam will automatically be moved to the next class level class. There is no fee associated with the in-class diagnostic exam.
